Secondary Commodity Markets

Broker / Business Developer

scrap-ex, a growing Secondary Commodity Market trading platform, is now looking for a Broker / Business Developer to join its team.

The role:

- You will report to the Director of Markets and will be responsible for maintaining existing client relationships and developing new ones.
- As part of a small team you will get involved with all aspects of the business but with a strong focus on driving the business forward.
- You will focus strongly on customer service, support and conduct client presentations.
- You will assist clients with trade execution and you will provide market commentary when required.

The successful candidate will:

- be of graduate calibre.
- have a strong product knowledge of secondary materials gained in the recycling, re-processing or waste packaging sector.
- have outstanding relationship-building capabilities and highly developed communication skills.
- will bring existing established relationships with them.
- be confident and articulate.
- will have strong IT skills, Excel, PowerPoint and MS products.

Apply by emailing a copy of your cv also quoting current remuneration details to **jobs@scrap-ex.com**. Alternatively you may wish to apply to the address below:
